

## Crystal Clear Services crowdsale agreement

These terms define terms of use of smart contract and coins on the decentralized distributed Ethereum blockchain.

### **Nature and use of smart contract and coin**

Smart contract (hereinafter 'smart contract' or 'software') is a software deployed and working on the decentralized distributed Ethereum blockchain (hereinafter 'Network'). This software was initially developed and deployed by Crystal Clear Services (hereinafter "Company," "we," or "us"). Coins (hereinafter 'coins') are part of the software and ensure its interaction with the Network. By using smart contract, including its coins you expressly acknowledge and represent that you (hereinafter 'User' or 'you') have carefully reviewed and accepted this agreement between you as a User and the Company.

This agreement is deemed to be concluded in Australia between you and the Company on the date and time you start using the Software.

THE SOFTWARE, INCLUDING COINS IS PROVIDED "AS IS", WITHOUT WARRANTY OF ANY KIND, EXPRESS OR IMPLIED, INCLUDING BUT NOT LIMITED TO THE WARRANTIES OF MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE AND NON-INFRINGEMENT. IN NO EVENT SHALL THE AUTHORS OR COPYRIGHT HOLDERS BE LIABLE FOR ANY CLAIM, DAMAGES OR OTHER LIABILITY, WHETHER IN AN ACTION OF CONTRACT, TORT OR OTHERWISE, ARISING FROM, OUT OF OR IN CONNECTION WITH THE SOFTWARE OR COINS, OR THE USE OR OTHER DEALINGS IN THE SOFTWARE OR COINS.

### **Purpose of the smart contract and coins**

The purpose of the coins is to be used in the Crystal Clear Services platform. CCT are virtual items used as a currency within the Crystal Clear Services platform.

### **Limits**

You may not participate in the ICO crowdsale if you are a resident of the US (United States of America).

### **Liability**

We are not liable for any lost funds if an unsupported wallet is used by you. Please use one of the suggested wallets listed on our ICO announcement website, or do your own research into a preferred wallet to check if it is supported.

### **Description of the software**

Due to the nature of the Network code of the working software cannot be changed after deployment. The maximum number of coins implemented in the software is determined by the amount of ETH transferred during the ICO period. A maximum (hard cap) of 10,000,000 coins will be created (minted).
